FLAGSHIP EXPORT PRODUCT

Hass Avocado

Buyer Specification

Uganda-origin Hass for international fresh-produce buyers, supplied through Curated commercial production and structured grower aggregation.

ORIGIN

Uganda

COUNTS

12-30

CARTONS

4kg / 8kg

CAPACITY

8 MT/month

PLANNING

Year-round

Commercial supply built around buyer requirements.

- Buyer-defined grading, maturity and pack format.
- Traceability and pre-export shipment controls.
- Air-freight-led dispatch planning for freshness.
- GlobalG.A.P. readiness work in progress; certification is not claimed unless formally achieved.

Specifications and capacity are indicative and subject to harvest availability, buyer confirmation and shipment conditions.

Preparation aligned to applicable destination-market requirements

Supply model

110+ acres

under Hass avocado cultivation

400+ growers

structured sourcing network

Own farms + growers

commercial production and aggregation

Logistics and shelf-life planning

- Air-freight-led shipment planning.
- Shelf-life planning: approximately 3-4 weeks, subject to maturity, handling and cold-chain conditions.
- Final timing and routing are confirmed for each destination and buyer requirement.

CERTIFICATION STATUS

GlobalG.A.P. readiness programme in progress.

Curated represents certification only after formal certification is achieved and can be verified. Buyer-specific documentation is confirmed during commercial engagement.

Discuss your supply requirement

Send your destination, preferred count, carton format, expected volume and delivery window.
